

Leitz Circular Saw Blades New Generation

Leitz Circular Saw Blades

Leitz premium

- Improved cutting quality, increased quiet running and noise reduction by -3 dB(A) by using laser ornaments
- Optimized gullet areas and tooth heights
- Longer performance times by using wear-resistant tungsten carbide qualities

Leitz excellent

- Optimal cutting quality, maximal quiet running and noise reduction by -5 dB(A) by using filled laser ornaments
- Diamond circular saw blades
- Best performance times by especially adjusted tungsten carbide qualities
- Circular saw blades for specific demands (e. g. RazorCut, BrillianceCut)
