

Diamaster WhisperCut Prismatic-Rebate- Cutterhead

For V-grooving in Aluminium composite panels

High quantities, for example in the production of facade claddings made of Aluminium composite panels, present the user with repeated challenges in terms of cutting quality and precision.

With the particularly efficient and dynamic Diamaster WhisperCut Prismatic-Rebate-Cutterhead, Leitz offers the solution for fast, quiet and high-quality cutting of V-grooves in large quantities for precise folding edges.

YOUR BENEFITS

- Energy-efficient
- Significantly less noise
- Long lifetime
- Perfect cutting quality

AT A GLANCE

- Multi-resharpenable
- Individual diameters
- Suitable for all conventional machines and aggregates
- Available at short notice
- Diamond tipped

Among other things, perfect folding edges are particularly important for the cladding of facades.

-3 TO -5 dB(A)

IN COMPARISON TO
STANDARD REBATE-
CUTTERHEADS

-100 %

NO NEED TO
REWORK THE
CUTTING EDGE

UP TO 6-times

RESHARPENABLE

Your benefits due to ...

SUSTAINABILITY

Diamaster WhisperCut Prismatic-Rebate-Cutterhead – lightweight, quiet, resharpenable

- Protects the machine and saves energy due to Aluminium tool body
- Less noise through special WhisperCut technology
- Saves resources and is particularly economical due to multiple resharpenability

EFFICIENCY AND PRODUCTIVITY

Diamaster WhisperCut Prismatic-Rebate-Cutterhead – dynamic on the machine

- Short production times
- Higher feed rates possible
- Longer tool lives

FLEXIBILITY

Diamaster WhisperCut Prismatic-Rebate-Cutterhead – variable in use

- Exchangeable diamond knives
- Suitable for materials such as Alucobond®, Alucore®, Dibond®, Reynobond®
